Dear _____ ,

I am one of your constituents and a person of faith who believes in Gospel values. What has been taking place on our southern border is reprehensible and must stop. The recent Executive Order of President Trump is not a solution. Bipartisan comprehensive immigration reform is the solution. The U.S. Conference of Catholic Bishops and the U.S. Chamber of Commerce articulate what true and just immigration reform should include: **a pathway to citizenship** or earned legalization; **temporary worker programs** for highly skilled and lesser-skilled workers, including those in the agriculture industry; **an immigration system that is family based**, reducing waiting times for family reunification; **improved enforcement to protect our borders while facilitating the flow of trade and travel**, as well as increasing the lawful means for migrants to enter, live, and work in this country.

Sincerely,

(signature)
